SKILLS

Problem Solver	Team work
Communication	Critical thinking
Time management	HTML, CSS
JavaScript	TailwindCss
BootStrap	Style Component
React.Js	Typescript

Aluko Olakunle Samuel
Frontend Developer

As a frontend engineer, I have a strong understanding of HTML, CSS, JavaScript, TypeScript, and React.Js as well as a keen eye for design and usability. I am skilled at creating responsive and user-friendly websites and applications that are optimized for performance.

I am a proactive problem-solver and a strong collaborator, able to work effectively with both technical and non-technical team members. I am constantly seeking to improve my skills and stay up-to-date with the latest developments in the frontend field.

WORK EXPERIENCE

Eval360   (Sept 01, 2022 – May 31, 2023)
Frontend Web Developer

Working in this company opened my eyes to much more collaboration with other departments involved in the same product. Through my activeness in my team, We delivered features in less than 2 days, increasing the speed of other teams by 10%. By the end of this product, the company revenue was increased in profit by 5% in 2 months

- I Wrote a reusable and optimized code that led to the advancement of my team. I wrote
- and implemented codes to ensure cross-browser compatibility.
- I Implemented design mockups using ReactJS.
- During my time working with Eval360, I consumed Restful API developed by the backend developer(s) in an optimized manner.

HNG   (May 01, 2022 - October 01, 2022)
Frontend Developer

At this time of work, I collaborated with great minds like backend developers, DevOps, Marketers, Product Designers, and Project managers in delivering a product that has a measurable impact on the organization.

- I Co-worked on the front end of a large e-commerce website
- At a point in this project, the Matter arise to seek volunteers for some code restructuring, I Made myself available and volunteered to help in restructuring some

  of my team members' code to the standard and directive of the team lead.
- I used ReactJS in delivering good products.
- I Collaborated with back-end developers to integrate user-interface elements with server-side logic
- Optimized applications for maximum speed and scalability
